Assts. Design Engineer @Micro Tech Private		• Lahore, Pakistan

### **STRENGTHS**

**Problem Solving Critical Thinking** Organizational Flexibility Creativity Teamwork

### III NEXT PLAN

Want to work on Al Models. On the way...

### RECENT PROJECTS EXPERIENCES

#### Kendis.io

VueJS, Java, Java SpringBoot, HTML, jQuery, MongoDB

Over two years, I've been deeply involved as a full-stack developer in a groundbreaking project aimed at revolutionizing organizational agility. Our solution is the ultimate answer for scaling Agile methodologies within any organization. It combines essential features like OKRs, Strategic Themes, Roadmaps, Solution boards, and top-tier PI/Big Room Planning and Tracking capabilities. Our goal is to empower organizations to achieve their objectives efficiently and effectively in today's dynamic business landscape. .

#### dukan.pk

#### ReactJS, Redux Toolkit, TypeScript, Laravel, PHP, RabbitMQ, Socket.io

In just seven months as a full-stack developer, I contributed to a pivotal project focused on building a comprehensive module for Dukan's digital banking software and e-commerce infrastructure. This module is a crucial component of their platform, facilitating seamless connectivity between retailers, distributors, and manufacturers, while also integrating embedded financial services. My role involved designing and implementing the complete cPanel module, enhancing the platform's functionality and user experience to empower businesses in the digital marketplace. . https://cpanel.dukan.pk/

#### **Ecommerce Store**

### React, Redux, NodeJS, Python, Laravel, MongoDB & Cron jobs

Over the span of 3 to 4 years, I dedicated my expertise to developing a robust e-commerce platform specializing in the sale of mobile phones. This venture involved meticulous planning, design, and implementation to create a seamless online shopping experience for customers. From user-friendly navigation to secure payment gateways, the platform offers a comprehensive range of features to facilitate smooth transactions. With a focus on quality, reliability, and customer satisfaction, the mobile store has emerged as a trusted destination for purchasing mobile devices, contributing to its success in the competitive e-commerce landscape.

#### **Smart School Managment System**

In my role as a software engineer for nearly three years, I spearheaded the development of a comprehensive school management system comprising 18 distinct modules. This system is characterized by its simplicity, power, and affordability, offering an intuitive interface that engages teachers and parents without requiring specialized expertise. With unlimited student licenses and a range of powerful features tailored for educational institutions, our solution provides everything necessary to streamline operations effectively and efficiently.

#### AngularJS, Codeiginter, Laravel, JavaScript, jQuery, MySql, PHP & Wodpress

As a software engineer for nearly two years, I've been deeply involved in the development and maintenance of several high-profile websites spanning WordPress, Laravel, AngularJS, and NGINX environments. My primary responsibilities have included making modifications to enhance functionality, implementing SEO strategies to improve visibility, and overseeing deployment processes. Some of the notable websites I've contributed to include TeamTalk, PlanetRugby, Football365, Cricket365, Tenis365, and PlanetFootball. Through my expertise, these platforms have been optimized for performance, user experience, and search engine ranking, contributing to their success in their respective domains.

#### Lionheartstoryz

#### NextJS, NodeJS, Sanity, ReactJS, Typescript

During my tenure as a developer, I dedicated my skills to crafting an engaging online platform, LionHeartStoryz.com, tailored for children to enjoy reading and listening to stories. Leveraging Next.js, React.js, Sanity CMS, Google Authentication, and TypeScript, I ensured a seamless and secure user experience. My contributions ranged from implementing interactive features to optimizing performance, all with a focus on fostering a love for storytelling in young audiences. This project highlights my proficiency in cutting-edge technologies and my commitment to creating enriching digital experiences for diverse audiences.
